

# ESAB FR Welding Jacket

## FR Clothing Range form ESAB

The ESAB FR Welders Jacket has been developed by welders for welders. The garment conforms to the latest ISO welding standards, ensuring superior protection, performance and comfort.

The Phoenix FR material is inherently flame retardant and high performing meaning that the jacket will maintain its FR properties during the lifetime of the product.

The zipper is well protected and the design of the jacket will ensure good moveability. The stand up collar with velcro fastening will cover that “easy to burn” area on the neck. With the velcro wrist adjustment it’s easy to get the sleeve inside the welding glove.

- Phoenix FR flame retardant inherently fabric - protection through the life of the product
- Stand up collar – protecting the neck
- Hard wearing modacrylic blend fabric
- Two Velcro fastened patch pockets
- Velcro fastened storm flap
- Two lower patch pockets with side access
- Pocket flaps and Velcro fastenings
- Velcro adjustment on sleeve cuffs
